Embed experts by experience in organizations leading social change

The **Amplify Action Research Program** was created to leverage the unique insights of individuals with lived experience in the child welfare system to create **lasting, systematic change**.

We envision a world where service systems are successfully transformed by these **“experts by experience”** who conduct rigorous research to learn from, synthesize, and elevate first-hand experience directed at change.

Over the course of eight (8) weeks, participants will be exposed to and develop their social science research abilities, personal and professional skills, and a committed community for long after the end of the program.

### Eligibility

- Targeted age: 18 - 25
- CA resident
- Some experience with child welfare

- Living Wage
- Basic Needs Stipend
- Technology Stipend
- Peer Mentor
- Coaching
